Trustees Vote $23,250 To Run Village for Year

Annual Appropriation Lists Anticipated Expense for Fiscal Year

Village government in Antioch for the fiscal year, May 1 to April 31, including all supplies, services and salaries will cost an anticipated $23,250, according to the annual appropriation ordinance passed by the village board of trustees at the July meeting held Tuesday night.

This year's appropriation represents a $1,035.00 reduction from the 1942 total of $24,285.00.

Heading the list of appropriations for the various departments is the amount voted for sewer and water department — $4725.00 Streets and alleys will receive $3,400.00, and the general fund will need $3,700.00, according to the budget. The Fire Department claims $1,800.00, and the police department, $2,500.00. Street lighting will cost an estimated $1,900, and the bonded indebtedness of the village will require $1,325.00 to retire bonds and pay interest. Parks are given $3,500.00.

Just how closely the village dads seek to exist within the income is shown by the meager $200 voted to the contingent fund for miscellaneous and unforeseen expenses.

Administrative Cost Small

One of the smallest items of village expense is the cost of administration, only $1,600.00 being allowed for personnel, including salaries of the 12 administrative officials—the mayor and six trustees, clerk, treasurer, collector and health officers. The cost of administering the expenditure of $23,250.00 as indicated at only $1,600.00 ought to provide a moral lesson for New Deal spendthrifts, according to one village official.

Besides transacting the regular routine of business Tuesday night, the board accepted the report of E. F. Laurin, certified public accountant who has audited the village books for several years.

Laurin's report disclosed that there is within the village limits $472,319.00 in taxable property. The report showed also that the Fire and Water departments have government investments bought at a cost of $13,266.00 that have a present value of $13,993.20 and a maturity value of $17,800.00

In addition to financial matters the board also took action on a petition by the Antioch Legion post and granted the Post permission to hold a carnival in Antioch on August 5, 6, and 7.

August J. Baethke Dies In Forest Park

Father of Walter Baethke Succumbs After a Two Weeks Illness

Services for August J. Baethke, 79, were held at two o'clock today at the chapel at 6748 Roosevelt rd., and First Reformed Evangelical Lutheran church, Elgin ave and Howard st., Forest Park.

Mr. Baethke, long a resident of Trevor, Wis., died Monday in Forest Park hospital following two weeks illness. He had recently sold his property in Trevor and was living with his daughter, Mrs. Lillian Johnson, at Arlington Heights. He was the father of Walter Baethke, Antioch barber.

His widow, Minnie, and three sons and a daughter survive: Walter, Arthur and Edgar, and Mrs. Johnson, with whom he made his home when stricken with illness.

Burial was in Woodlawn cemetery.

Father of Mrs. R. Vos Dies In Lake Geneva

Oscar C. Johnson, 77, father of Mrs. Roman B. Vos of Antioch, died Sunday at his home at Lake Geneva, Wis., where he had been a resident for the past 65 years.

He is survived by his wife, Grace; four daughters—Mrs. Vos of Antioch; Mrs. Ruth Matthews, Wisconsin Rapids, Mrs. Jack Brellenthin, Lake Geneva, and Mrs. Thomas Hurdis, Kenosha; also a son, Merrill Johnson, Lake Geneva. There are 19 grandchildren.

Funeral services were held yesterday afternoon from the home in Lake Geneva and burial was in Elkhorn, cemetery.

Antioch Assessment Roll Published Today

The assessment roll for the Town of Antioch as fixed by the assessor, appears in Sections Two and Three of today's issue of the Antioch News.

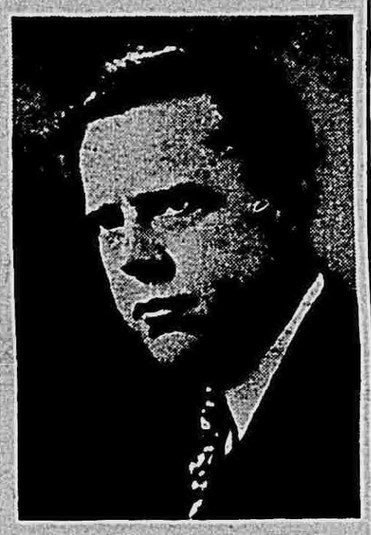
County Treasurer Gustav Fredbeck advises every resident of the Town of Antioch, which includes the Village of Antioch, to check up on the amount of his assessment.

This is quadrennial assessment year, and the valuations fixed this year by the assessor will be the basis of taxes for the next four years. Any property owner who objects to the amount of his property valuation should file formal complaint with the Board of Review within ten days after the publication of this roll.

Cong. Ralph Church Blasts Bureaucrats

Says Over 3,000,000 Payrollers Handle Government Red Tape

During the rush of the Congress to pass appropriation measures, Congressman Ralph E. Church (R), 10th District of Illinois, reminded the House that "in spite of the heavy tax burden on the people, less than 30 per cent of the cost of the Federal Government is defrayed by current



CONG. RALPH E. CHURCH

revenue." He stated that while the American people are glad to sacrifice "to finance the war," . . . they insist that we eliminate all items of expenditure not essential."

Congressman Church pointed out that "On November 11, 1918, when the Armistice of World War I was declared, the number of employees in the Executive branch of the Government was 917,760. In April of this year the number was 3,008,519." "In the last war," he said, "the ratio was one civilian Government employee to every five soldiers, but in this war the ratio is one to every two and one-half soldiers." "If the expansion of the Federal Government continues, it will be no exaggeration to say that before the end of the war there will be more civilian government employees than soldiers."

Congressman Church stated that the Federal bureaucracy was actually hindering the war effort. "Literally thousands of men," he said, "are diverted from their war production work to answering government questionnaires which serve no useful purpose, except perhaps to satisfy the curiosity of some bureaucrat or perhaps to find something to keep himself occupied."

The Tenth District Congressman stated that "The Eastman Kodak Company employs 84 persons, 3,224 hours a week, to complete 409 reports for each quarter.

To illustrate the absurdity of the questionnaires and reports, he called the attention of the House to the "case of a farmer who had to fill out a two-page report to get a pair of rubber boots. He was informed that if he lost the boots he was subject to a $10,000 fine or 10 years' imprisonment."

"All this is bureaucracy," concluded Congressman Church. "It amounts to legalized theft. Unless we deal with this problem courageously and promptly," he warned, "we may lose here at home to a bureaucratic government the very freedom for which we are fighting."

Hospital Patients

Dr. R. D. Williams is a patient this week in Victory Memorial hospital, Waukegan, where he went for a check-up.

Donald Heath, 13, son of Mr. and Mrs. L. C. Heath, was taken to St. Therese hospital Friday morning and was operated on for appendicitis Saturday morning.

Chicagoan Drowns When Boat Upsets

Rescue Squad Recovers the Body of Mario Massi at Channel Lake

The lake region's first drowning casualty of the year was recorded Sunday when Mario Massi, 54, of 706 Kenneth ave., Chicago, lost his life in Channel Lake when the motorboat in which he and four companions were riding was swamped by a wave from the backwash of another boat.

Massie, the father of four grown children, was the only one in the boat who could swim. Massi and the three others were guests of Cesare Molinari, also of Chicago. Molinari was driving the boat and had turned sharply as the other boat sped past him. The force of the wave turned the boat partly over and the occupants were thrown into the water.

Molinari assisted his wife and two others—Paul Delliquadri and Charles Vitellero, both of Chicago, back to the side of the boat where they held on until rescued. When he turned to assist Massi he was unable to find him.

The Antioch Rescue squad recovered Massi's body after dragging for more than an hour.

The body was taken to the Strang funeral home where following an inquest held Sunday evening by Dr. J. L. Taylor, county coroner, a coroner's jury returned a verdict of "drowning, following the capsizing of a boat." The body was taken to Chicago for burial.

The Channel Lake fatality was the fourth drowning in Lake county this year. Two drownings occurred at Diamond Lake several weeks ago.

WAR VETERAN VICTIM OF HEART ATTACK AT LAKE MARIE SUNDAY

Walter E. Rumpf, 47, of 6144 W. School st., Chicago, veteran of World war I, died suddenly Sunday at Lake Marie, from a heart attack. He had driven from Chicago to visit friends at the lake, and collapsed as he left the car.

Rumpf had just been released from Hines hospital, Maywood, where he had been a patient for four months. He had heart ailment for several years, according to Coroner John L. Taylor who conducted the inquest here.

Chicagoan Dies of Heart Attack Tuesday

A second casualty from heart attack occurred here Tuesday. The victim was Louis Krizenecky, 61, of 2501 Walton st., Chicago, who died at his Bluff Lake summer home.

He was found stricken on the lawn at 2 a. m. by his daughter-in-law, Mrs. William Krizenecky. Dr. I. L. Breakstone was called, and upon his arrival pronounced the man dead. He had been suffering from a heart ailment for several months.

The deceased was born in Brillin, Wis., in 1882. He had lived in Chicago for several years.

Surviving are his widow, Allrna, and son, William.

The body was taken to Chicago, where services will be held on Friday, with burial in St. Adelbert's cemetery.

Disabilities Return 7,000 to Civil Life

More than 7,000 Illinois men have been discharged by the armed services because of physical or mental disabilities, according to Guy Bonney, head of the veterans service division of the Illinois Department of Public Welfare.

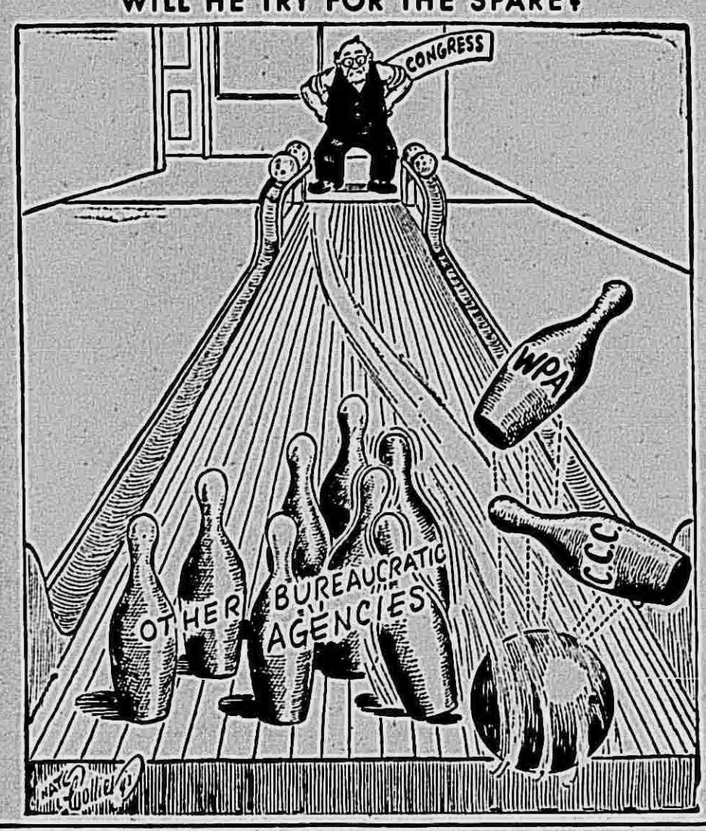
Records show 5,116 were discharged because of physical disabilities and 2,062 for mental illness. Bonney also said 2,079 were sent home because they were vitally needed in agricultural and industrial pursuits, and 309 men were discharged because of home dependency needs.

Antioch News Printed In Two Editions Today

The Antioch News appears in two editions today. The Home Edition, containing 24 pages, carries the 1943 assessment roll for Antioch township, which makes it a rather bulky paper.

Omitting the 16 pages of the tax roll, which is dry reading matter for men in service, the News then switched to the regular eight-page paper and dubbed it "Service Men's Edition." This eliminates bulk for overseas mailing, prevents waste of paper, and also complies with postal regulations which provide that all copies of an edition shall be identical.

WILL HE TRY FOR THE SPARE?



Meanest Man In the World Visits Lake Region

American Legion Collection Box Pilfered at Bluff Lake Resort

The meanest man in the world is being sought this week by Ed. Knickelbein, proprietor of Herman's resort on Bluff lake. Ed's ire, as well as that of patrons of the popular resort, is directed against the sneak thief who made off with an American Legion collection box placed in the resort for the collection of money for the post's Service Men's fund.

The theft took place on Monday afternoon and was not noticed until a guest of the place asked for the box, wishing to contribute. A search was started and the empty box was found on the ground outside the resort. The thief had evidently taken the money from the box and discarded it just outside the door. Employees of the resort and guests who were in the taxern when the theft was discovered made a search for suspicious characters, but were unable to find the culprit.

The stolen box contained some eight to ten dollars which was to have provided treats for servicemen. The Antioch Legion has employed the collection boxes for raising funds since the start of the war, and although about 150 of them are displayed on store counters and in resorts, this is the first time any have been stolen.

Knickelbein told Newsmen today that the thief would undoubtedly have suffered severe bodily injuries had he been caught, as sentiment among those who were at the resort was strong against any person who would stoop to steal from our fighting men.

It is believed that the great influx of 4th of July visitors brought a great many undesirables to the region.

Funeral Rites Held For Mrs. Jessie Low

Native of Scotland Dies at Age 85; Lived in This Country 56 Years

Funeral services for Mrs. Jessie Bonner Low were held at Millburn Congregational church at 2 o'clock Tuesday afternoon, with Rev. L. H. Messersmith officiating. Burial was in Millburn cemetery.

Jessie Bonner Low was born in Stuartfield, Aberdeenshire, Scotland, October 20, 1858, where she resided until she came to America in October, 1887. She made her home with her sister, Mrs. Elsie Lawrence until her marriage to George A. Low, Dec. 28, 1887. They lived on a farm in York House community near Waukegan, for about 39 years. After the death of her husband in 1926, Mrs. Low came to live with her daughter, Mrs. Carl H. Anderson at Millburn, at whose home she passed away on July 3, 1943, the last member of a family of 13. She is survived by her daughter and many nieces and nephews.

L. Mikkelsen of Chicago was the guest of Mrs. Sine Laursen last week and for the Fourth of July holidays.

News of the Boys in Service

Three Local Boys Leave for Navy V12 Officer School

Three successful candidates for Naval Air Officer training program V5, J. B. Fields, Jr., Ed. Jones, and Joseph M. (Milton) Smith, have been accepted as officer traing material and are now stationed at Newberry College, Newberry, South Carolina.

The three boys were successful in passing the stiff V5 examinations given at the Antioch Township High School early this spring as well as rigid physical examinations. Until such time as their training is complete the boys will have a V12 designation, but will be re-designated V5 at the end of their schooling and commissioned Naval Air officers.

Blood Donor Registrations Show Increase

Only 145 Donors Needed to Complete Quota for July 23rd

Only 145 more registrants are needed to complete the quota set up by the American Red Cross Blood Donor Service Mobile Unit which will operate in Antioch on Friday, July 23. Pledges, which were slow in coming in during the first part of the drive, are now coming in at an accellerated rate which seems to assure the quota of 400 donors being filled.

The Mobile Unit which is being brought here through the efforts of local Red Cross authorities and the Antioch American Legion Post, will accept blood from Lake Villa and Fox Lake residents as well as those living in Antioch township.

American Legion officials today expressed the hope that residents of the lake region would avail themselves of this oportunity to donate blood and help save our fighting men. The drive for pledges ends tomorrow, Friday, July 9, and all persons who are eligible are urged to sign up today or tomorrow, before the drive ends.

Blood—No. 1 Lifesaver

In a recent comment concerning the low death rate of our wounded fighting men, Brig. Gen. David N. W. Grant, U. S. Army air surgeon, attributed it to four causes. First on his list was blood plasma; second, quick removal of the wounded (often by air) from the battlefield to hospitals for treatment;

Third, the miracle-working sulfa drugs;

Fourth, surgical skill.

"Most of you cannot do much about the last three," Gen. Grant said, "but EVERY ONE OF YOU CAN HELP WITH THE FIRST—BLOOD PLASMA. Do everything you can to aid the Red Cross and other agencies in going ahead with this work. IT IS THE NO. 1 FACTOR IN SAVING OUR SOLDIERS' LIVES."

From Gen. Grant's statement the thousands who have been giving blood to the Red Cross will draw deep satisfaction. The inestimable and vital worth of their help in winning the war is confirmed on the authority direct from the battlefields.

Those who have NOT given blood will realize, from the general's observations, that they have been missing an opportunity to serve their nation and its fighting men in a most direct and indispensable way.

They cannot go to the front and bind the wounds of the fallen, but they CAN SEND THEIR BLOOD to the front to keep life in hurt bodies where it would otherwise flicker out.

Prospective donors may obtain pledge cards at Reeves Drug Store, King's Drug store, the First National Bank, First State Bank of Antioch, or at the Antioch News office in Antioch. Donors in Lake Villa may register at Hooper's Drug store, and Mrs. A. J. Amundsen is chairman for Grant Township and Fox Lake.

Hold Graveside Service for Infant

Graveside services were held today at 1:30 o'clock at Memorial Park cemetery for Pearl Elizabeth Turnpaugh, infant daughter of Mr. and Mrs. Ernest Turnpaugh. Born Monday, July 5, in St. Therese hospital, Waukegan, the infant lived but a few hours, passing away Tuesday. The Rev. A. H. Pierstorff, grandfather of the infant, officiated at the service.

The father, Sgt. Ernest Turnpaugh, was recently released from military service to permit him to assist his father-in-law on the farm.

GENERAL MacARTHUR: PRESIDENTIAL CANDIDATE

(Wm. H. Stuart in Heard and Seen)

Herewith is political news the like of which has never before been written.

Gen. DOUGLAS MacARTHUR, according to present, definite plans, will be entered as a candidate for President in the ILLINOIS REPUBLICAN PRESIDENTIAL PREFERENTIAL PRIMARY next April. It is an amazing and an unprecedented move as the General is not a candidate, cannot be a candidate under army regulations, and there is little likelihood of his being in the country when the political campaign is being waged.

But the newly incorporated GEN. DOUGLAS MacARTHUR for President, JOSEPH SAVAGE, chairman, proposes to enter him as a candidate, on the theory that the people have the right to draft him if they so desire.

How about a statement of candidacy? Ah, chickens invariably come home to roost! In 1940, the state ballot board, under the then Democratic regime, decided that President FRANKLIN D. ROOSEVELT'S name could go on the Preferential Primary ballot without a statement of candidacy, as it was for an advisory vote, not for nomination or election to office. And the PRESIDEN'S name went on the ballot, although he had given no indication as to his intentions. He received 1,176,531 votes to 190,801 votes cast for JOHN NANCE GARNER. The petition putting the President's name on the ballot was started by the KELLY-NASH organization.

The petition to put Gen. MacARTHUR'S name on the ballot will be started by the MacARTHUR for President Committee. Similar moves are being made in Wisconsin and other states.

Candidates in ILLINOIS' Presidential Primary, Democrat and Republican, will NOT be practically unopposed as in 1940. The 1944 primary promises to be a torrid one and the battle lines are forming already, long ahead of the usual time. The MacARTHUR committee will open headquarters in Chicago next week, Mr. SAVAGE informs me.

The MacARTHUR entry, as it now looks, will not give the people a chance for choice in respect to NATIONALISM versus internationalism as no one assumes to define his position on that or any other issue, but Chairman Savage points out that the great general who has fought for his country in all the wars of his time can be relied upon to stand for AMERICA FIRST in any and all dealings between this country and foreign powers.

Illinois PRESIDENTIAL PRIMARY will be the most important in political history.

(Editor Stuart knows, as does every other wide-awake American, that the New Deal fears Gen. MacArthur more than any other potential candidate for President in 1944. Gen. MacArthur is ignored in the New Deal press, Elmer Davis' Office of War Information, and by the administration; except in its undercover attempts to eliminate him as a rival for the White House in 1944. A glaring example of this was in Sunday's Chicago Sun, New Deal organ, which printed Fourth of July messages from two outstanding American admirals, one of whom is serving in the Solomon Island area, while Gen. MacArthur, America's most popular military man, was left out of the picture. Why?)

LAKE VILLA

Lake Villa Community Church
Methodist, Rev. John DeVries, Pastor
Sunday School—10 A. M.
Worship Service—11 A. M.

The annual summer sale of fancywork, rugs, aprons and quilts will be held at the Village hall on Thursday afternoon and evening, July 29, sponsored by the Woman's Society of Christian Service. There will be a card party in connection and you and your friends are invited to enjoy a pleasant time there together.

Rev. John DeVries, his wife and small daughter who recently came from their former charge near Minneapolis, are now nicely settled in the parsonage.

Mr. and Mrs. Raymond Hussey joined Mrs. Hussey's brother and wife on Tuesday and together they are visiting relatives in Toledo, Ohio, for a few days.

Mr. and Mrs. Plaisance of Webster Grove, Mo., spent a few days last week with Mr. and Mrs. Wm. Weber at their home at Sand lake.

Mr. and Mrs. George Mitchell and daughter, Helen Ann, also her mother, Mrs. Harriet Mitchell, all of Chicago, spent Sunday with Mrs. James Kerr, and Mrs. Harriet Mitchell remained for the week with Mrs. Kerr.

Mrs. Stella Pedersen went to Chicago on Sunday to attend the funeral of her sister, Mrs. Mary Butz, on Monday morning, and the funeral of her brother, Edward Mathis, on Tuesday morning. Her sister had been ill in the hospital for a few weeks, but her brother was ill only a short time.

Mrs. Mabel Baker of Withee, Wis., spent Saturday with her niece, Mrs. Blumenschein.

Cedar Lake 4-H club girls met Tuesday with their leader, Mrs. Roy Crichton at her home. Betty May Ericson gave a talk on treating cuts and bruises, and Geraldine Sass read an article, "Girl Writes Boy." Magda McCaw and Mary Ann Poulsen gave a demonstration of spiral and spiral reverse bandages. Mrs. Crichton led in a discussion of canning fruits and vegetables in the hot water bath and the girls prepared apricots, plums and raspberries for canning in the hot water bath. The meeting adjourned and Mrs. Crichton served watermelon.

Mrs. Hooper and daughters, Mrs. Edward Langbein and Mrs. Traver Ellis visited friends and relatives at Belvidere last Thursday.

Mr. and Mrs. Gordon Blumenschein and daughter, Joyce, of South Bend, Ind., came Saturday to visit their parents, the Walter Schneider and Clarence Blumenschein families here, and Arlyn Schneider, who spent the past month with her sister, returned home.

Mr. and Mrs. Louis Koelstra and daughter, Nancy, of Wisconsin Rapids visited their sisters, Mrs. Herman Wolff and Mrs. Don Oelschlager and other relatives the past week, and returned to their home on Saturday.

Pvt. Leonard Schneider of Fort Riley, Kansas, surprised his wife and parents last week when he came in on a three day furlough.

Mrs. Lorraine Ellis and small son, Jimmie, left Saturday to join their husband and father, Ensign Traver Ellis, in Boston for a time.

Joe Hucker who has been in training in the U. S. army at Las Vegas since his induction more than 18 months ago spent last week with his wife here, and was on his way for further training in a Maryland camp.

Many friends and relatives of inmates of the German Old People's home here came last Sunday and enjoyed a picnic on the grounds. Parking space and picnic grounds were filled to capacity.

Time of Cutting Hay Determines Food Value

Early-Cut Hay Has More Protein Content

High quality hay is more important than ever with the acute feed shortage farmers are facing this year. The time of hay cutting is one of the most important decisions a dairyman will have to make concerning his hay crop this year. Research in Missouri has shown that timothy, for example, has 135 pounds of total protein per acre if cut when coming into bloom, whereas if cut when the seed is in the dough, it contains only 92 pounds of protein per acre. The same general tendency in favor of early cutting is as true of alfalfa and the clovers as it is with timothy.

Besides having higher feeding value, early-cut hay is more palatable, so cows eat more of it. Furthermore, since early-cut hay has a higher proportion of leaves to stems than late cut hay, there is less waste in feeding. Cows often refuse the stemy stuff they are sometimes offered. An additional advantage of early cutting is that the sod produces a more vigorous renewal growth which can be quite useful in late summer.

Dairy and crop specialists believe that the hay should be cut in the stages indicated as follows: Timothy, after heading but before blooming; red and alsike clover, half to three-fourths full bloom; alfalfa, first cutting, quarter bloom; alfalfa, last cutting, before September 15 in northern states.

Dead Animals

Even the horse struck by lightning near the pasture fence or the cattle that die from disease have some commercial value. Rather than bury them on the farm in shallow trenches or washed-out gullies covered with brush, the farmer can get rid of this nuisance by merely telephoning the rendering plant to send a truck. Usually there is little or nothing paid, unless the animal's hide has value.

Once in the rendering plant, the dead animal is converted into a dozen commercial products that have found a market within the last 20 years. The hide may be salable either for leather or the hair or wool that can be scraped from it. Flesh is cooked to expel fats and greases which go into soap, axle grease and other inedible tallow products.

The problem of disposing of dead animals is not confined to the farm. In a city the size of Columbus, Ohio, (300,000) about 2,800 dead animals must be disposed of yearly, including horses, cows, dogs and cats. Care of this refuse is handled by the city rendering plant which disposes of garbage and sells all possible by-products in order to cover the cost of the service. After the water and grease is pressed out, the solid part is dried, ground and added to selected garbage and sold for feed for livestock.

TREVOR

Mr. and Mrs. Henry Prange and children were Sunday callers on Mrs. Prange's mother, Mrs. Jennie Kerkman. In the evening they called on Mr. Prange's mother, Mrs. Jennie Prange, and Mr. and Mrs. William Fredrickson at Bristol.

The Theron Hollister family attended a family reunion picnic at the Herman Schulz home at Pleasant Prairie on the Fourth of July.

The Mutz family attended funeral services for their brother, Albert J. Mutz, Jr., at the Blessed Sacrament church in Chicago Saturday morning. Albert J. Mutz passed away suddenly of heart failure at his home in Chicago Thursday morning, July 1, at the age of 58 years. He was the oldest son of the late Mr. and Mrs. John Mutz of Trevor. When a young boy he came with his parents from Chicago to Camp Lake, later to a farm near Trevor, which place the three brothers are now operating. Surviving are his widow, Cathrene Mutz, nee Letzer, son, Albert, Jr., and daughter, Cathrene; two sisters, Mrs. Minnie Schumacher, Melrose Park, and Mrs. Elizabeth Jankovsky, Chicago, three brothers, Edward, John and Walter Mutz, Trevor. One sister, Mrs. Lillian Letzer and a brother preceded him in death. Interment was at All Saints cemetery, Chicago.

Mr. and Mrs. Champ Parham were Kenosha visitors Tuesday.

Mr. and Mrs. Frank Mattis, Chicago, spent Thursday with his parents, Mr. and Mrs. John Mattis.

Mrs. Roy Seitz, Antioch, visited Mrs. Estelle May, Tuesday.

Steve Hamer, Chicago, en route to Madison, spent Tuesday night with Mrs. Ottilda Schumacher and son, John.

Priscilla Allen, Kenosha, is spending this week with Mr. and Mrs. Champ Parham.

Mrs. H. Schwery entertained the Willing Workers at her home at Shore View Thursday.

The John Blasi family, Kenosha, are moving into their home in Trevor which they purchased recently from A. J. Baethke.

Mrs. Irving Elms, Antioch, called on her aunt, Mrs. Joseph Smith, Thursday afternoon.

Mr. and Mrs. Arthur Bushing attended funeral services for Mrs. Ella Williams in Kenosha Friday.

Mr. and Mrs. Allen Copper were Kenosha visitors Monday.

Mr. and Mrs. Nick Selear, Milwaukee, spent over the week-end with the former's parents, Mr. and Mrs. Joe Selear, Sr. Sunday and Monday visitors were Mr. and Mrs. Joe Selear, Jr., and daughter, Carol, Miss Madeline Friedhoff and Miss Madeline Selear, Kenosha. The latter remained for the week with her parents. Adam Weber, Berwyn, Ill., also spent the Fourth at the Selear home.

Harry Parks and William Smith, Chicago, spent over the Fourth at the Diana Lodge.

The Novotny families spent Sunday and over the Fourth at their cottage in Trevor.

Mrs. Minnie Bursley, Westmont, Ill., is visiting her sister, Mrs. Larry Astrup, over the Fourth.

Mr. and Mrs. Herman Hellman and Mrs. Ida Dexter, Wilmette, and Mr. and Mrs. Henry Hellman, Chicago, spent over the Fourth with the Harry Dexter family.

Clarence Runyard and lady friend of Ashland, Wis., spent over the Fourth with the home folks, and were Saturday callers at the Dan Longman home.

Friends of the A. J. Baethke family received word Monday morning that Mr. Baethke passed away at the home of his son-in-law and daughter, Mr. and Mrs. M. Johnson at Arlington Heights Monday morning, July 5, at the age of 78 years and nine months. Mr. Baethke, a former resident of Trevor, was moved to his daughter's home a week ago. GOD CALLS A LEADER

LESSON TEXT—Exodus 3:1-12.
GOLDEN TEXT—Come now therefore, and I will send thee unto Pharaoh, that thou mayest bring forth my people the children of Israel out of Egypt.—Exodus 3:10.

God calls men, commissions, and uses them to carry out His plans and purposes in the earth. What a great truth that is, and how it glorifies the destiny of man to know that it is divinely appointed.

As Joseph Parker effectively points out, the experience of Moses in Midian was a direct dealing with God, whereas we who may not be able to "see the fountain" must "be content to drink at the stream," but should always remember that the stream flows from that same fountain.

"Every man should put to himself the questions. What is my destiny? What does God mean me to be and to do in the world? . . . It is a most pitiable thing that a man should read of Moses being divinely called . . . to a special work" and fail to realize "that God has a special work for every man to do." Let us be careful that we do not "so pervert and misinterpret circumstances as to press them into a justification of self-will," rather than recognize them as "destiny which is beckoning us to duty."

For our instruction and guidance we consider, then, the story of the call of this outstanding leader of Israel. It presents him as a true servant of God, one who was—

I. Personally Equipped.

While it is a blessed truth that God will use any man who surrenders himself to His control and guidance, no matter how limited that man's ability and training may be, it is also true that, other things being equal, the man with the best equipment will be the most useful servant.

God gave Moses a unique preparation. He was first of all a Hebrew, born among the people that he was to lead. He knew the luxury and all the cultural advantages of the Egyptian court (Acts 7:22), with the safeguard of training by his own mother as his nurse.

He observed at first hand the oppression of his people, and made a self-willed and impulsive effort to deal with the problem. The result was that he had a "postgraduate" course of instruction and discipline in the wilderness, where he spent forty years in the school of experience.

We have learned anew from our war experience that training for service is essential. If that is true in military matters and in secular life, it is doubly true in the service of Christ. He does graciously use even the humble and untrained worker, but no one who has a vision of service will be content to remain unprepared.

II. Spiritually Qualified.

Moses was a man who knew God. Had he been a worldly man he would only have been curious regarding the phenomenon of the burning bush. But note how alert and reverent he was and how immediately responsive to the instructions and the call of God.

Here God's future leader was made conscious of the infinite majesty and holiness of God, the need of reverence and godly fear, the purpose of the Eternal One to deliver His people, and the assurance that He would be with His servant. Such a spiritual experience made effective the excellent preparation which he already had for service.

All the training and preparation in the world is worse than useless in God's service apart from that spiritual qualification that comes from true regeneration and dedication to Him.

There is no more pathetic sight than a spiritually powerless church worker going through the motions of service for Christ. If we are in that condition we may be sure that we deceive no one but ourselves.

III. Divinely Called.

Moses was called (v. 4), commissioned (vv. 6-10), and clad with divine authority (vv. 11, 12) for his great task.

God calls His servants to different responsibilities and in different ways, but the important thing is that we should know that we are in His will and that we are answering His call.

No one has any right to choose full-time Christian service simply as a desirable vocation. In any calling of life man needs God's guidance in order to make a proper choice, but in the ministry or missionary service it is an absolute essential.

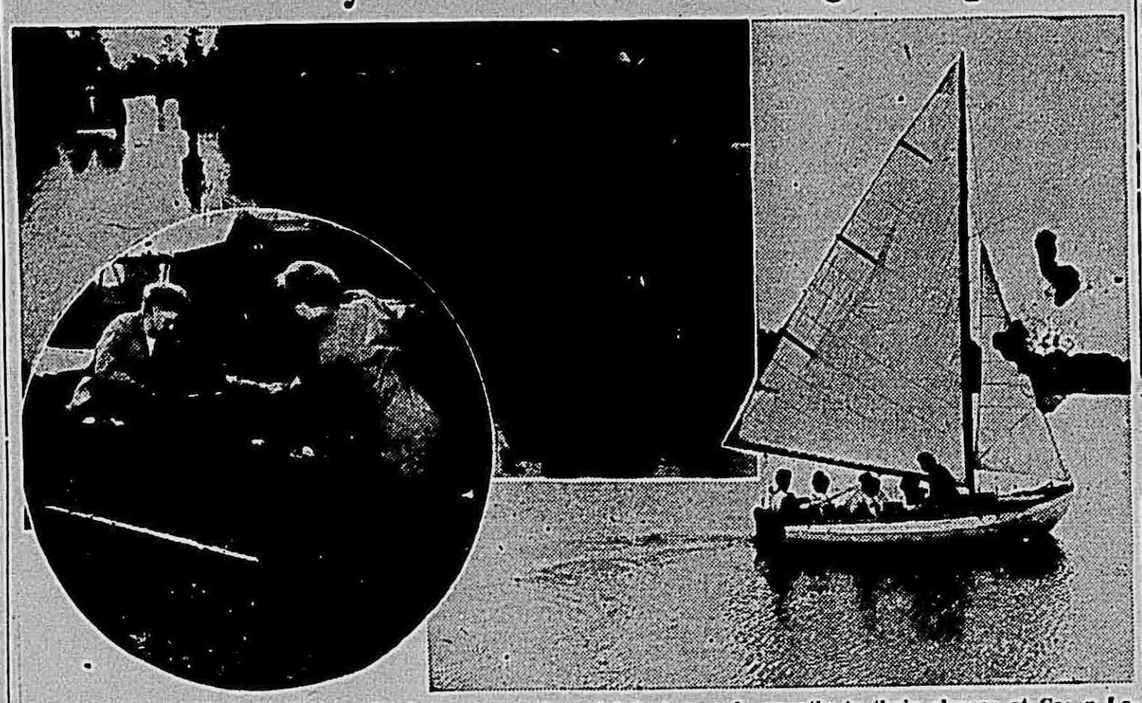
If we were more careful to seek His will for every individual there would be less unhappiness in the world. But in the case of the one who goes out to speak for God there is not only the danger of distress, but of real disaster for himself and those to whom he tries to minister. [illegible] Christ.

Prepared, qualified, and called, [illegible] is now ready to meet God [illegible] he goes on to his life of holy [illegible] for Him.

Wounded Raiders Flown From Behind Jap Lines

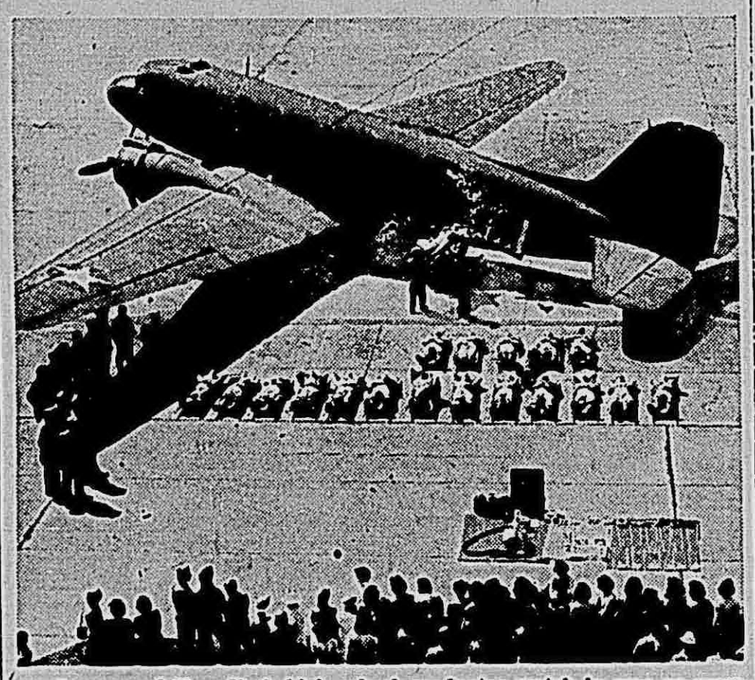
Despite wounds and jungle sores, Pvt. John Yates, a British raider, (left) manages to smile as he is flown from Burma. He was one of the raiding party that blew up railroad lines, supply depots, and disrupted communications 200 miles behind Japanese lines in that area. At center, raiders board that airplane which flew them back to India. They may be distinguished from RAF fliers by their bedraggled condition. A raider suffering from dysentery (bottom right) hangs onto a rope as he drinks water inside the plane.

At a Lady Leatherneck Training Camp



In snappy sharp cadence a unit of women marines (at top) march smartly to their classes at Camp Lejeune, New River, N. C. The lady leathernecks are wearing their raincoats. At lower left two women marines check the water and oil of a jeep. This is part of the toughening up course which these girls go through before they relieve a male marine so that he can get into a more active post. As part of their course, women marines must take lessons in sailing. A group is shown at right in sailboats. One of the most pleasing experiences for the girls at Camp Lejeune is being served by male waiters in the mess halls.

Graduates See Rescue of War Wounded



A group of New York high school graduates watch in awe as members of the army air force demonstrate the mass evacuation of wounded from a battlefront. This was a feature of a day-long military exhibition staged for the 35,000 graduates by Maj. Gen. Ralph Royce, commander of the First air force. The planes used were DC-3 transport planes.

The Mei-Ling chapter of the Camp Fire Girls present Mme. Chiang Kai-shek with money for the adoption of two Chinese war orphans and a record of their donations to United China Relief.

Soldier Tells Miners of African Victory

A wounded veteran of the North African victory, Sergt. Ted Varney, relates his experiences to a group of coal miners in Dickson City, Pa. A third strike of the United Mine Workers was ended by an announcement by their president, John L. Lewis, who said that the miners would go back to work under Mine Custodian Ickes until October 31.

Controlled Germany

Sweden's warrior king Gustaphus Adolphus for a time controlled all of Germany. His successors held northeast Germany, Finland and the part of Russia where Leningrad now stands until 1709. In that year the Swedes were defeated by the Russians at Poltava, in the Ukraine, scene of recent fighting between German and Russian armies. A Viking graveyard, just north of Karlskrona, recalls a still earlier period of the Northman's strength.

Don't Do It

Salem, Ore., under a new ordinance, will fine a person up to $60 or jail him up to 30 days for depositing or leaving broken glass on Salem streets. The action is similar to that taken by Boise, Idaho, recently; in Boise, anyone convicted of breaking a glass object, then leaving the broken bits on the street, is liable to a maximum fine of $100.

Used Few Tanks

Throughout the last war, only 241 tanks were used by American troops in combat areas, and those were made chiefly in England and France.

Mr. and Mrs. John W. Murrie moved to Salem, Wis., last Thursday.

Plan Club House For Venetian Village

Plans are now under way to raise funds to build a club house in Venetian Village for the use of residents of the subdivision located on Sand, Miltmore and Fourth lakes. The announcement was made by the Venetian Village Civic association following the meeting held at Sand Lake hotel on July 3.

Land for the proposed building was donated by J. R. Williamson, owner of the subdivision, and the association members expressed thanks to him for the gift of the triangular piece of land consisting of three lots which was deeded to the association.

The association elected the following officers to serve for the ensuing year:

President—William Zink, 5732 N. Manton st., Chicago

Vice President—John DeWolfe, 217 S. Cauler, Oak Park

Secretary—Mrs. Beulah Ness, 2241 N. Kostner, Chicago

Treasurer—Art Okerblom, 5928 Warwick, Chicago

Sheriff—Oskor Pearson, Route 2, Box 61, Miltmore Lake

Director—L. C. Ross, 3828 N. Lakewood, Chicago.

Director—E. R. Berg—2259 Eastwood, Chicago

Director—J. W. Henning, Route 2, Box 82, Miltmore Lake.

This association has been incorporated since 1940.

Origin of Soil

The origin of a soil is the most important cause of either a natural deficiency of phosphorus or of a plentiful supply. Thus a soil derived from materials low in phosphorus will also be low in this element. There are soils that have a high total phosphorus content but because of a high lime content, the phosphorus is unavailable or insoluble. The ability of the soil to release its phosphorus is a measure of its fertility, and not the total amount in a soil.

The Observer

Former Supervisor Barney Naber thinks the present method of distributing liquor license money is all wrong. Under the law funds collected from rural taverns in license fees go to the county as a whole. Naber thinks the money should be returned to the source from which collected—the various townships. Last year Antioch township had 56 rural taverns, which paid into the county general fund a total of about $11,200, while Waukegan township had only two rural taverns, contributing only $400 to the county treasury. Highland Park had no taverns, but that township along with other townships of the county enjoyed spending some of the money collected here. Naber says Antioch township should have had the benefit of the $11,200 collected here. The former supervisor says he has brought this situation, which he terms as unjust, before the 8th district legislators on a number of occasions but nothing was ever done about it at Springfield. "The county is stronger than a township," Naber says.

Old Age Pensions Increase In June

Old age assistance payments for June increased in almost the same amount as decrease in payments for dependent children, according to a report issued yesterday by Arthur C. Leuder, state aduitor of public accounts, at Springfield.

The old age payments totaled $4,204,300 for 147,744 men and women 65 years old and over. This was an increase of $8,660 over total payments for May.

Payments for 60,553 dependent children in June totaled $857,753. The decrease from the May total was $8,760. Payments in Cook county were made for 29,170 children and to 51,601 old age beneficiaries.

To women who have said "I WISH I WERE A MAN SO I COULD FIGHT!"

NOW YOU CAN JOIN THE NAVY

Serve Your Country in the WAVES or the SPARS

YOU'VE been wanting to do something BIG for your country, to help win the war . . . and this is your chance! The country NEEDS women in the Navy — and it needs them at once. Navy manpower must be supplemented with Navy womanpower. Now you have the opportunity to serve your country in non-combatant activity—alongside the Navy armed forces and the Navy working forces.

What a thrill it is to be able to say, "I'M IN THE NAVY!" You can rightfully be proud to be serving your country in the greatest Navy on earth. Remember, too, that the Government will make it well worth your while to furnish your services in this emergency. And after the war is won, you will come out of service TRAINED for a profitable civilian specialty or trade.

HERE IS WHAT YOU GET:

An income valued at $150.00 a month to start, including $50.00 base pay, CASH, plus expenses beginning the day you report for active duty. Base pay can advance to $126.00 cash a month, plus allowances.

College-like life while in training.

Good food, comfortable quarters, the finest medical and dental care.

$200 worth of clothes free. This includes the smart Navy uniform.

Training for a trade or profession which may be continued in civilian life after the war.

Low cost insurance. Allowances to dependents. Privileges of free mail. Reduced rates on transportation, movie and theater tickets, where granted. Benefits from USO, Red Cross and Navy Relief.

Opportunity for promotions and raise in pay, and a chance to become an officer. Plus the thrill of being a part of the U. S. Navy and doing a job to win the war.

WHAT ARE THE WAVES AND THE SPARS?

The WAVES is an organization of women whose job is to serve with Navy men at shore stations. The SPARS is the women's division of the Coast Guard, which is itself a part of the NAVY. Neither WAVES nor SPARS are reqired to serve outside the continental limits of the United States.

THE REQUIREMENTS ARE SIMPLE

For enlisted status, the general requirements are simple. You must merely be a citizen—between 20 and 36 years old—have had at least two years of high school or business school—have no children under 18 years of age, and not be married to a man in the U. S. Navy.

Send now for the free booklet mentioned below. This booklet will give you detailed information about physical requirements, advancements for officers, and many other important facts.

THIS SMART UNIFORM FREE!

An outfit worth $200. An enlisted WAVE or SPAR will be provided with an allowance of $200 for uniforms and other clothing. The official uniform ("everything that shows", except shoes and gloves) costs about $160, which is paid from the $200 allowance. The balance of about $40 is given you for shoes, under-clothing and anything else you may need.

This trim Navy blue uniform was styled by a famous designer to flatter every figure and make you look—and feel—your best.

The WAVES and SPARS, dressed so smartly, gain the admiration of all the men in the service.

WEEKLY NEWS ANALYSIS

Senate, House Conference Committee Stops Roll-Back of Retail Food Costs; Revised Bill Approves Funds for FSA; Heavy Aerial Action Marks Pacific War

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Released by Western Newspaper Union.

To test new rubber life rafts and accessories, six men were cast adrift off Cape Fear, N. C., in the Atlantic. The men were equipped with a new lightweight life preserver which also holds rations and other essentials, solution for purifying salt water for drinking and oars out of which a mast and boom can be erected by linking them together in a right angle.

PRICE 'ROLL-BACK':
Doomed by Committee

Drastic revision of the administration's subsidy program was indicated by action of a senate and house conference committee, which prohibited use of funds for the "roll-back" of retail food prices. The committee's move would kill the present "roll-back" of butter and meat, only permitting payments to processors for commitments to June 15.

However, the committee did authorize the payment of 150 million dollars in subsidies to offset increased transportation costs, and stimulate the production of scarce metals and essential food products. Congressional approval, however, would be required for expenditures over 150 million dollars.

The conference committee's action ignored an appeal by the War Labor board for the adoption of the administration's "roll-back" program. Citing its policy of limiting wage increases to 15 per cent over the January 1941 level, the WLB declared that the cost of living has spiralled up 6 per cent since last October, with food alone rising 12.9 per cent.

The conference committee increased the Commodity Credit corporation lending authority 750 million dollars to an aggregate of 3 billion 400 million dollars. Under the terms of the bill which also extended the life of the CCC for two years, the war food administrator would be allowed to buy food from farmers and resell it at a loss to stimulate production.

CHEERS ALLIES:
Major Blow

Invasion talk quickened with the statement of Malcolm MacDonald, British high commissioner to Canada, that the Allies would soon assault Hitler's European fortress.

In predicting the invasion, MacDonald said a series of small forays could be expected to feel out the enemy before a major blow would be struck.

MacDonald saw further cheer in the Allies' operations against U-boats in the North Atlantic. Even as he revealed that one submarine had been sunk each day during the preceding two weeks, Goering's Essener National Zeitung confessed that the Allies had surprised the Nazi U-boat force by the use of aircraft carriers in convoys.

As invasion talk increased, Allied bombers continued to pound Germany.

TREASON:
New Trials in Chicago

Basing part of its decision on a recent Supreme court ruling, the United States Circuit Court of Appeals voided the conviction of six defendants for treason in Chicago and ordered the case reheard.

It was pointed out that the Supreme court had held arraignment before a magistrate necessary before a suspect could be questioned. In the treason case, statements had been taken before such arraignment, although the government claimed the suspects had waived the right of appearance before a judicial officer.

The appeals court also held that the individuals were entitled to separate trials which the court denied, and Judge William J. Campbell had erroneously instructed the jury.

FARM:
Approve FSA Funds

Final congressional action on the 875 million dollar farm bill was further delayed with the senate's return of the bill to a conference committee for adoption of provisions for crop insurance and incentive payments.

Before returning the bill, the senate approved conference recommendations for the farm security program. Twenty million dollars was appropriated for the administration of the agency and it was authorized to borrow 60 millions for rehabilitation loans. Transfer of the FSA functions to the War Food administration also was approved.

In sending the bill back to the committee, the senate insisted on acceptance of its provisions for continuing wheat and crop insurance, and on removal of restrictions against use of 400 million dollars of soil conservation payments for incentive awards to producers.

The conference version had recommended an appropriation of 30 million dollars for loans to tenants for farm purchase. It also permitted the FSA to use as much of its funds as necessary during the first four months of the fiscal year before passage of legislation in congress over the future of the FSA. The senate approved both sections.

CABINET RIFT:
Wallace vs. Jones

Differences in the presidential cabinet flared into the open when Vice President Henry A. Wallace accused Secretary of Commerce Jesse Jones of hamstringing operations of the Board of Economic Warfare.

As chairman of the BEW, Wallace directs the agency's program for the purchase of material and development of strategic natural resources in foreign countries. As chairman of the Reconstruction Finance corporation, Jones is responsible for furnishing the funds for the BEW operations.

Wallace claimed that the RFC was lax in building up a stockpile of strategic material before Pearl Harbor, although expressly authorized to do so. Jones countered with the assertion that of 1½ billion dollars of precious material bought by this country, the BEW initiated only 3 per cent of the purchases.

PACIFIC:
Action in Air

While American aviators bombed Kiska seven times in one day in the North Pacific, the deliverance of heavy blows at Japan in the Southwest Pacific was promised by Maj. Gen. Claire Chennault upon his return to China from conferences at Washington.

As the soupy Aleutian weather cleared enough to warrant operations, medium bombers hammered at Kiska, blowing up anti-aircraft emplacements and runways. The raids brought to 16 the number staged by American airmen in three days.

In predicting an offensive against the Japs in the southwest, General Chennault said conferences in Washington had convinced him that the U. S. was concentrating most of its naval action in the Pacific and that Allied leaders were making a most judicious use of resources for global warfare.

CHESTER DAVIS:
Resigns Food Job

As support grew in congress for his appointment as Food Czar, Chester Davis resigned from his position as War Food administrator. Lack of sufficient authority and opposition to the government's subsidy program were the reasons Davis gave for his action.

President Roosevelt accepted the resignation and immediately named Marvin Jones, a former Texas congressman and chairman of the United Nations' recent food conference, as his successor. Mr. Roosevelt also relieved Davis of responsibility for plotting the 1944 food program, saying it would not be proper to tie another administrator to somebody else's policies.

In his letter of resignation, Davis declared that subsidies would not tend to halt inflation in this country unless accompanied by current tax and savings programs. Mr. Roosevelt replied with the statement that congress had failed to enact the added tax legislation he had asked.

In answer to Davis' assertion that authority over broad food policy and the day-to-day decisions were being exercised elsewhere, Mr. Roosevelt said he had named a War Mobilization director for the purpose of co-ordinating all functions of the war agencies.

MEDITERRANEAN:
Blast Axis From Air

While the Axis continued to report Allied concentrations in North Africa, U. S. airmen struck at Nazi aerial installations in Greece, further diverting attention to the Balkans.

Strong formations of Liberator bombers raided Axis airdromes near the ancient Greek capital of Athens. Although enemy planes arose in number to the defense, hits were reported on hangars, fuel dumps and aircraft spread over the fields.

In announcing the raids, the ninth U. S. air force also revealed that the Axis continued their novel attacks on our planes by attempting to drop bombs on them from fighters overhead.

British Wellington bombers dropped incendiaries and block busters on Naples as direct attacks were continued on Italy. Docks and industrial installations were reported struck and the Italians admitted damage.

COAL PRODUCTION:
U. S. Names Director

While 156,000 miners stayed out of the pits, Carl Elbridge Newton, 45-year-old president of the Chesapeake and Ohio railroad, was appointed to direct the operations of the nation's mines now under government control. The selection of Newton was announced as Secretary of the Interior Harold Ickes told a congressional committee that there was no hope for an early return of the properties to the owners.

Although many locals voted to resume work, thousands of soft and hard coal miners insisted they would not go back without a new contract. Pits of several steel companies in Pennsylvania were affected, but in Illinois where the union and operators had come to an agreement before the War Labor board refused to recognize the concession, all of the 25,000 miners were on the job.

Formerly an assistant United States attorney in New York and special assistant state attorney general in New York, Newton was named president of the Chesapeake and Ohio last December 15. However, he had been connected with railroad matters since 1938. In his capacity, Newton is answerable only to Ickes, although he will have the services of Ickes' office.

U. S. BACKS GIRAUD:
F.D.R. Shows Support

President Roosevelt's approval of General Eisenhower's support of Gen. Henri Giraud's French command in North Africa was seen in an invitation extended to Giraud to visit the U. S. Although Giraud accepted, he is not expected to make the trip until cessation of hostilities.

General Eisenhower came to Giraud's side during the recent conferences of the French National committee at Algiers. Gen. Charles DeGaulle had boldly sought to subordinate Giraud to a military commission and replace certain of his officers. General Eisenhower then stepped in and insisted on the retention of Giraud's command.

Back of the maze of political complication, one could see General Eisenhower's firm respect for the honor so strongly cast in military men. It was General Eisenhower who negotiated with Admiral Jean Darlan for French North Africa's collaboration with the Allies at the time of the U. S. landings in 1942. When Darlan was assassinated, General Giraud inherited his position as high commissioner and with it, Darlan's organization.

NAZI SPY:

Trial for espionage with death or prison facing him if convicted loomed before 57-year-old Ernest Lehmitz, Staten Island, N. Y., air raid warden, following his confession to the FBI that he had informed the German government of American troop movements, convoys and arms production.

Lehmitz had communicated with the Nazi intelligence by using invisible ink to write between the lines of apparently harmless letters to acquaintances in Germany.

How electrical appliance dealers conserve vital materials

In devoting their time and skill to the adjusting and repairing of electric appliances, hundreds of electrical dealers throughout Northern Illinois are performing an important wartime service.

By extending the useful life of electric irons, washers, vacuum cleaners, toasters, coffeemakers and other time- and work-savers, these expert repairmen eliminate the necessity of manufacturing hundreds of thousands of new electric appliances. And the critical materials saved in this way are available for the production of tanks, ships and planes which are essential to victory on the land, on the sea and in the air.

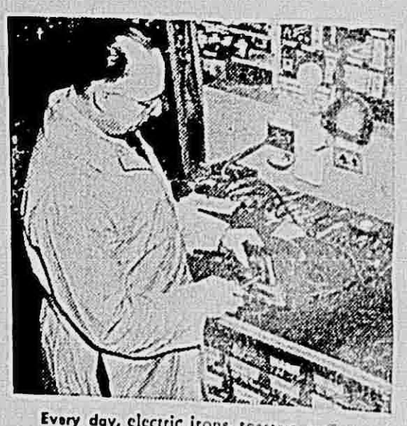
Electricity has gone to war—don't waste it!

After determining cause of the trouble and completing necessary repairs, this serviceman reassembles the vacuum cleaner. Restoring life of this appliance means the saving of critical materials.

Radio Testing is explained to a new employe who is being trained for radio repair work. With radios working overtime the number of repairs has shown a marked increase.

The delicate mechanism of an electric clock is adjusted by this repairman. Often a simple adjustment is all that is necessary to put a clock back in good working condition.

The proof of the waffle iron is in the baking. So this repairman tests the operation of the repaired iron by actually baking a waffle. It looks like the iron is working perfectly.



Every day, electric irons, toasters, coffeemakers, waffle bakers, vacuum cleaners and other work-saving appliances are brought in to dealers for adjustment and repair.

Stealing of Illegal Object Puzzles Jury

TWIN FALLS, IDAHO.—A district jury debated this question for 19 hours: Is a person guilty of stealing if he takes something illegal to own?

The defendant was accused of stealing a slot machine. His counsel said he should be freed because such devices are illegal. Retrial was postponed.

Airman Tells of 17 Days in Crash

Trying Days in Greenland For Victims of Wreck.

CHESTER, PA.—A tale of 17 fearful, harrowing days in the icy waters off Greenland, almost paralleling as a test of endurance the experience of Eddie Rickenbacker and his crew, was told here by Sergt. William W. Myers, 21, of Pocomoke City, Md., one of seven airmen aboard a Flying Fortress which crashed searching for a lost plane last November.

Myers, radioman on the bomber, said he was thrown unconscious 20 feet from the plane with a broken finger and lacerated wrist when the big ship, flying under a low ceiling, hit an ice cap and split in two. The other crew members escaped with minor injuries.

With fast dwindling food supplies and temperatures 10 degrees below zero, the men huddled together under a blanket made of fleece-lining from their flying suits. Working feverishly to repair the badly damaged radio equipment, Myers on the seventh day managed to send out an SOS which was picked up by an amateur radio operator in the United States.

Army authorities were notified and on the ninth day an army plane sighted the men and dropped food and bedding. There was no place to land.

An officer from a coast guard station on the Arctic circle, approximately 115 miles from the wrecked ship, reached by motor sled a point within 100 yards of the trapped fliers when suddenly he disappeared in a crevasse and was never found.

Four of the crew, including Myers, returned to safety by a coast guard plane from the same station on the Arctic circle. The plane was making its third trip to the isolated area for the remaining three men but never reached its destination. The pilot and radioman perished when they cracked up "somewhere in Greenland."

Singing in the Shower Discloses Man's Identity

MIAMI BEACH, FLA.—Private Giovanni Benedetto, 19, Metropolitan Opera singer stationed here, was found out by a weakness for singing in the shower.

He successfully kept his identity a secret until a private passing the shower heard a song from within. He inquired who was singing and was told:

"Oh, that's Benedetto in there. Nice voice."

The name was recognized and the young soldier was persuaded to sing for the boys.

Anglers Send Tackle to Soldiers in Aleutians

SAN FRANCISCO.—It all started in the Aleutians where some of the soldiers desired to supplement their menu from their front-yard ocean teeming with fish, but not a fish hook could be found.

Governor Gruening of Alaska mentioned this in a radio broadcast and it was heeded by the San Francisco League for Service Men.

In response to an appeal in the bay area $5,000 worth of fishing tackle has been donated and forwarded, but the demand still exceeds the supply.

Gift From Home Makes Sergeant's Face Red

MILLVILLE, MASS. — Imagine Sergt. W. P. Witnik's surprise when he opened a package from the Millville Home Service club and found among other things that lipstick had been included in the gifts sent to him "somewhere in Alaska."

In a letter to Millville the sergeant wrote the situation was made more embarrassing because 25 of his buddies were spectators at the package opening.

"It will take a long time to live it down," writes Witnik.

Army Cadet's Neighbors Harvest His Corn Crop

CRETE, NEB.—Donald Rezabeck, off to war as a cadet in the army bombardier school at Midland, Texas, doesn't have to worry about his corn crop back home. Neighbors chipped in and husked 26 acres of corn which Rezabeck had left unhusked when he left for the army.

Seize English Grammars In 'Invasion' Countries

LONDON.—The Germans are confiscating all English grammars in France, Belgium, Norway and Holland, the Daily Sketch said. The Germans had learned that many natives were studying English in anticipation of helping the Allies in an invasion.

Farm Topics

Cows Should Be Fed On Basis of Milk Given

Feed Cannot Be Spared For Low Producers

Nobody knows yet how the crop yields of corn, wheat, barley, soybeans, cottonseed and linseed will compare with past averages, E. J. Perry of Rutgers U. points out. And feed dealers cannot get deliveries very far in advance or in so large amounts as formerly. This makes it especially important to waste no concentrates in feeding, but to feed every cow strictly according to her milk yield in order to meet 1943 goals.

If there's no time to mark down daily milk yields, Perry urges dairymen to do it every week or 10 days and readjust grain feeding accordingly.

On pasture, the rate of concentrate feeding will depend upon how good the pasture is. Early grass up to July usually has more digestible protein than the later, so much less grain is then required than in the winter months.

Pasture is the most natural feed for cows and with plenty of it they will "shine" at the pail, and be in condition to start a good job in the barn this coming fall. It is not uncommon for a cow only medium in size to eat 100 pounds of pasture daily. Neglect of pastures and of cows on pasture is one of the biggest problems facing the dairymen today.

For cows giving 35 to 40 pounds of milk a day, a feed ratio of one pound of grain a day for every seven pounds of milk is about right.

To help herd owners provide conditions favorable to high yields during the pasture season, Perry offers the following reminders:

Fertilize permanent pastures and provide special summer supplementary pastures according to the recommendations of the county agricultural agent.

Practice rotation grazing from one plot to another.

Avoid too early and too close grazing. For regular pasture, four to six inches is a good height.

Adapt the kind and amount of grain to the kind and amount of pasture. Early pasture is high in digestible protein and the grain mixture used can have 3 or 4 per cent less protein than is usually needed for winter feeding.

For the higher testing breeds, a good trial starting rate for a cow which gives 30 pounds of milk a day is one pound of grain for five pounds of milk, and for the lower testing breeds, those giving 35 to 40 pounds a day, a good rate is one pound of grain for every seven pounds of milk, Perry says. Using and watching the scales carefully will tell the story and yield dividends for the owner and the country.

In hot weather, the herd will be better off in the barn during the latter half of the afternoon, especially if the barn is cool and the flies are partially controlled.

Prevent Farm Fires

Fifty per cent of our farm fires are preventable, states F. W. Niemeyer, general agent of the Farm Credit administration of St. Louis. Every farmer should take extra precautions to see that fires are not caused by defective flues, sparks on the roof, smoking, spontaneous combustion and improper handling of gasoline and kerosene.

For the duration it will be extremely difficult to obtain the lumber, hardware, roofing and labor to rebuild. The WLB has limited construction to that which, regardless of cost, (a) is essential to meet production goals, (b) is consistent with sound agricultural practices, (c) uses a minimum of scarce materials, and (d) does not interfere with labor essential to war industries.

Agricultural Notes

The "back to the farm movement" is gaining force right along.

• • •

If oats are grown as a companion crop in the seeding of legumes, a variety which matures early and produces a minimum amount of straw should be used. Kanota and Vicland are best suited for this purpose in addition to giving excellent grain yields.

Cheap Fertilizer

Rock phosphate is a cheap, effective fertilizer when used in growing clovers and alfalfa. These crops, with their strong feeding power for phosphorus, return it to the soil in a highly available form when they are plowed under or fed and the manure returned to the soil.

Antioch Assessment Roll is Published
TAXPAYERS SHOULD CHECK VALUATIONS

The assessment roll for the Town of Antioch as fixed by the assessor, appears in Sections 2 and 3 of today's issue of the Antioch News. Every resident of the Town of Antioch, which includes the Village of Antioch, should make it a point to check up on the amount of his assessment.

This is Quadrennial Assessment year, and the valuations fixed this year by the assessor will be the basis of taxes for the next four years. Any property owner who objects to the amount of his valuation should file a formal complaint with the Board of Review within ten days after the publication of this roll.

Assessment Roll

Antioch Township

Antioch Assessment Roll is Published

TAXPAYERS SHOULD CHECK VALUATIONS

The assessment roll for the Town of Antioch as fixed by the assessor, appears in Sections 2 and 3 of today's issue of the Antioch News. Every resident of the Town of Antioch, which includes the Village of Antioch, should make it a point to check up on the amount of his assessment.

This is Quadrennial Assessment year, and the valuations fixed this year by the assessor will be the basis of taxes for the next four years. Any property owner who objects to the amount of his valuation should file a formal complaint with the Board of Review within ten days after the publication of this roll.

Balanced Meals For Humans, Too

Nutrition Chart Helps Avoid 'Hidden Hunger'

Food is always important, but in wartime it becomes strategic material. That's why the seven basic food groups form the groundwork of a plan to get full benefit, nutritionally, from all the food in the national larder, according to the U. S. department of agriculture.

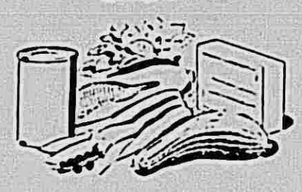
It's easy to figure out a balanced diet, nutritionists say, if the food chart is followed. If one or more of the "Basic Seven" groups is left out, day after day, it's a danger signal.

"I'm never hungry. I eat plenty of steak and potatoes."

People who talk like that, who never order vegetables, may be suffering from "hidden hunger."

This "hidden hunger" shows up in subtle ways. Workers who suffer from it tire more easily,

GROUP 1



GREEN AND YELLOW VEGETABLES...

some raw—some cooked, frozen or canned

are more liable to stumble into accidents resulting from abnormal fatigue. They fall prey to minor illness, their morale is lower, they are irritable and difficult to work with. All this may add up to millions of lost working days, if "hidden hunger" spreads across the land.

By dividing food into seven groups, the problem of selection is simplified. Each group has enough different kinds of foods in it to allow wide variety in meals. If, during wartime, you find some usual kind of food to be scarce, try new ones, making sure you hit all seven food groups.

Among the foods in Group 1—green and yellow vegetables—are asparagus, beet greens, broccoli, cabbage, chard, collards, dandelion greens, escarole, green peppers, lettuce, mustard greens, okra, parsley, green peas, snap or string beans, spinach, turnip greens, and watercress. Also carrots, pumpkins, rutabagas, squash, sweet potatoes, wax beans, yams and yellow turnips.

In Group 2 are all the citrus fruits and certain greens—oranges, tomatoes, grapefruit, cabbage and salad greens—served raw.

In Group 3—a large one—are potatoes, and other vegetables and fruits. It includes beets, cauliflower, celery, corn, cucumber, egg plant, lima beans, kohl-rabi, leeks, mushrooms, onions, parsnips, radishes, salsify, sauerkraut, turnips, and many others. Fruits included, and not mentioned in Group 2, are all those excepting the citrus, such as apples, berries and plums.

Milk and milk products make up Group 4. In it are buttermilk, cultured milk, evaporated and condensed milk, dry whole and skim milk, cream, all kinds of cheese, and ice cream.

Group 5 is the meat, poultry, fish and egg group. It includes also the protein alternates, dried beans, peas, nuts, and peanut butter. If your meat points don't last you through the week, switch to some unrationed food in this group, to be sure your meals contain enough protein.

Bread, flour and cereals (natural whole grain or enriched or restored) fall into Group 6. Breads and cereals should be of whole grains or enriched with vitamins so essential for health.

Group 7 contains butter and fortified margarine (with vitamin A added).

Farm Notes

As the butterfat of milk tends to soften the rubber parts of milking machines, the milk should be washed off with cold water immediately after milking is finished.

Kills Banker, Is Given Life Term All on Same Day

Justice Moves Swiftly for Man Who Slew Cashier In Attempted Holdup.

SHAWANO, WIS.—Wisconsin justice moved with such rapidity the other day that Reinhold Flessert, 25-year-old farm hand, who shot and killed a bank cashier in an attempted holdup at noon, was in the county jail by evening under sentence of life imprisonment for first degree murder.

This speedy disposition of the case followed Flessert's capture in mid-afternoon by a posse which pursued him into the woods where he fled on foot after the shooting.

"He wanted to get it over with, so we accommodated him," said District Atty. L. J. Brunner. The official added that Flessert was taken to the state penitentiary at Waupun in the morning and was actually serving his life term behind the prison bars before his crime was 24 hours old.

Waives Hearing.

Brunner said that he issued a first degree murder warrant for Flessert as soon as the man was brought to his office after the capture. Flessert waived preliminary hearing and was taken at once before Circuit Judge Arold Murphy, who accepted the bandit's plea of guilty and imposed sentence.

The victim of the attempted holdup was John Perrar, 45, cashier of the bank in the nearby village of Birnamwood. Perrar was serving a customer in the bank when Flessert, wearing dark glasses, entered and flourished a gun. Sheriff Stanley Brown said Flessert handed the cashier a sack which he ordered him to fill with money.

Instead of complying, Perrar dodged out a rear door. Flessert became frightened and ran out of the bank but encountered Perrar in front of the building. The sheriff said Flessert fired one shot at the cashier, hitting him in the forehead, and that Perrar died half an hour later.

Taken Without Struggle.

A posse of 60 men was gathered by Brown to search nearby wooded areas, and Flessert was taken into custody without a struggle about 3 p. m. in a farmhouse where he had asked for and been given a meal. Brown said Flessert admitted the shooting and said he had planned the holdup to get funds for a trip west.

Flessert is a native of Shawano and one of a family of 14 children, the sheriff said. He is unmarried and at one time was on probation for stealing a gun.

British AA Efficiency Multiplied Eight Times

LONDON.—Capt. Duncan Sandys, parliamentary secretary of the ministry of supply, said that Britain's anti-aircraft gunners were now shooting down eight enemy planes with the same number of shots required to down one German aircraft in the autumn of 1940.

He said that the difference had been achieved through a new mechanical fuse in anti-aircraft shells that is twice as accurate as the old-type powder fuse. "As a result," he said, "shells can now be made to burst accurately at heights half again as great as could be done at the beginning of the war."

'Walkie-Talkie' Is No Marvel in North Africa

BROOKLINE, MASS.—The American soldier in north Africa with his up-to-the-minute "walkie-talkie" radio set is not astonishing the natives, Roland Hayes said, for these same natives perfected a system of two-way communication over the air lanes many hundreds of years ago.

The noted Negro tenor said at his home here that he owned a drum which the Africans used to produce words and sentences.

"I don't mean code signals beaten with drumsticks. I mean signals which mimicked the speaking of the human voice. Just how the Africans did it I don't know."

Love-Sick Swain, 84, Jilted by Ration Board

SEYMOUR, CONN.—An 84-year-old farmer admitted to the ration board that he had used the gasoline allowed for his tractor in his car instead. Asked why, he explained: "To go to see my girl friend."

Cautioned by the surprised board, the octogenarian quickly suggested a way to eliminate those pleasure trips.

"How about extra gas for a honeymoon?" he asked.

Reluctantly, the board said no.

Man Steals Passenger Bus to Catch His Train

WHITE PLAINS, N. Y.—Did a man steal a 20-passenger bus to make his train? Maybe, say police.

The bus was taken from the Armonk garage by a man who said he was picking it up for the bus company.

Three hours later employees at the New York Central Railroad station complained to police it was cluttering up the bus terminal. Attendants there said a man drove up in the bus and dashed for a train.
